Vietnam

From 2005 – 2010, the Ministry of Natural Resources and Environment in Vietnam will be implementing several measures to help meet the national environmental protection strategy.

With this action plan in place for the next ten years, companies in water treatment and environmental technology sector will find new opportunities in Vietnam.

In recognising the demand for water treatment and environmental protection technology in Vietnam, Watertech Vietnam and Envirotec Vietnam is well timed to cater to the needs of these thriving industries.

Don't miss out this chance to tap on these flourishing sectors and to connect with a pool of key industry players!
